

Julius Karnwie

Junior Frontend Developer | React | Next.js | TypeScript | Tailwind CSS
jkarnwie2000@yahoo.com | 540-314-5008 | Roanoke, VA | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Summary

Junior Frontend Developer building responsive, accessible web applications with React, TypeScript, Next.js, and Tailwind CSS. Frontend Simplified graduate with a portfolio of deployed projects backed by REST API integration and a Git and GitHub workflow. Extensive customer-facing experience in banking brings clear communication, close attention to detail, and a genuine user-first mindset. Available for junior frontend roles, remote or on-site.

Technical Skills

Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3, Semantic HTML
Frameworks & Libraries: React, Next.js, Tailwind CSS, Responsive & Mobile-First Design
Backend & APIs: REST APIs (fetch / axios), Node.js
Tools & Platforms: Git, GitHub, Vite, Vercel, npm, GitHub Copilot

Experience

Karnwie's Golden Websites (Roanoke, VA) Jan 2026 - Present

Founder & Frontend Developer

- Built and deployed responsive, mobile-first websites for small businesses and nonprofits using React, JavaScript, HTML5, and CSS3, shipped to production on Vercel with a Git and GitHub workflow.
- Translated client goals into clean, accessible interfaces with semantic HTML, refining layout, spacing, and typography to improve clarity and engagement.

Skinstric AI (Remote) Unknown - 2026

Frontend Developer, Virtual Internship

- Built a responsive, production-grade frontend for an AI skincare platform using React, TypeScript, and Next.js against a real-world design specification.
- Integrated REST APIs for real-time data and asynchronous state, implementing loading and error states for a smooth user experience.
- Optimised interactivity and performance across breakpoints and debugged cross-browser issues to ship a stable, polished interface.

Member One Federal Credit Union (Roanoke, VA) Feb 2024 - Jan 2026

Member Contact Center Representative

- Resolved high-volume customer inquiries with accuracy and empathy in a regulated banking environment, a customer-first mindset that now shapes how I build clear, user-focused interfaces.

Projects

Ultraverse NFT Marketplace | [Live Demo](#) | [GitHub](#)

- React and Firebase: browse, create, and collect digital assets through a wallet-connect UI with real-time listings and a fully responsive marketplace layout.

React Film App | [Live Demo](#) | [GitHub](#)

- React and a REST film API: search and browse films with dynamic routing, asynchronous data fetching, and reusable, responsive card components.

Treact Responsive Landing | [Live Demo](#) | [GitHub](#)

- React and Tailwind CSS: fully responsive marketing site built from modular, reusable components with a mobile-first layout.
